## **SUPPLEMENTARY INFORMATION:**

### **I. Abstract**

This request is for extension of a currently approved information collection. This information collection is needed in order to meet the monitoring requirements of the Magnuson-Stevens Act (MSA). In particular, the Northwest Fisheries Science Center (NWFSC) needs economic data on all harvesters, first receivers, shorebased processors, catcher processors, and motherships participating in the West Coast groundfish trawl fishery.

The currently approved collection covers collection of data for the 2011, 2012, and 2013 operating years. The renewed approval will cover years 2014-2016. Data will be collected from all catcher vessels registered to a limited entry trawl endorsed permit, catcher processors registered to catcher processor permits, and motherships registered to mothership permits, first receivers, and shorebased processors that received round or head-and-gutted IFQ groundfish or whiting from a first receiver to provide the necessary information for analyzing the effects of the West Coast Groundfish Trawl Catch Share Program.

As stated in 50 CFR 660.114, the EDC forms due on September 1, 2015 will provide data for the 2014 operating year.
